3.	Job Role	7
4.	General Information	9
5.	Learning Outcome	12
6.	Assessment Criteria	14
7.	Trade Syllabus	24
8.	Annexure I(List of Trade Tools & Equipment)	60

During the two-year duration, a candidate is trained on subjects- Professional Skill, Professional Knowledge, and Employability Skills related to job role. In addition to this, a candidate is entrusted to make/do project work and Extra Curricular Activities to build up confidence. The practical skills are imparted in simple to complex manner & simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task. The broad components covered under Professional Skill subject are as below:

<u>FIRST YEAR:</u> This year will cover the safety aspect in general and specific to the trade, identification of tools & equipment, raw materials used. The trainee will perform Measuring & marking by using various Measuring & Marking tools. The trainee will be able to plan and perform basic fastening and fitting operations. Familiarize with basics of electricity, test and measure the electrical parameter. Skilling practice on maintenance of batteries being done. He will practice making various welding joints by using Arc and gas welding, trace and identify various hydraulics and pneumatics components and identify components in Air and Hydraulic Brake system.

The candidate will be able to dismantle Diesel Engine of LMV as per given standard procedures. Able to achieve skill on Overhauling of Cylinder Head, valve train, Piston, connecting rod assembly, crankshaft, flywheel and mounting flanges, spigot and bearings, camshaft etc. practice reassembling all parts of engine in correct sequence as per workshop manual. Perform testing on engine. Also, the trainee practice on repair and maintenance of Cooling, lubrication, Intake & Exhaust system of Engine. Perform maintenance of diesel fuel system, FIP, Governor and monitor emission of vehicle. Practice on repair, maintenance and overhaul of Starter, alternator and perform Execute troubleshooting in engine of LMV/HMV.

SECOND YEAR: In the second year, the trainee will learn to perform overhauling of light vehicle/Heavy Vehicle transmission units including Gear box, Single plate clutch assembly, Diaphragm clutch assembly, Constant mesh Gear box, synchromesh gear box, gear linkages, Propeller shaft, Universal Slip Joint, Rear axle assembly, Differential assembly. The trainee will perform overhauling of light vehicle Chassis units, adhering to the specifications and tolerances for the vehicle and the manufacturer's approved overhauling methods, Standard repair methods, health and safety requirements etc. the trainee will learn how to overhaul, repair and service Shackle, Leaf spring, Front axle, Front and rear suspension, Steering Gearbox- worm and roller type, Steering Gearbox- Reticulating ball type, Master cylinder, Tandem Master cylinder, Front and rear brake, Wheel cylinder, Vacuum booster, Air servo unit, Air tank (reservoir) etc. The trainee will also learn to carry out wheel balancing and Wheel Alignment to within acceptable limits.

The trainee will troubleshoot vehicle Engine components and ascertain repair. Plan & service Electronic Control Unit and check functionality. Diagnose & rectify the defects in vehicle to ensure functionality of vehicle. The trainees will carry out overhauling of charging system. Also, the trainee will perform overhauling of starting system. Troubleshoot electrical components of vehicle and ascertain repair. Overhaul, service and testing Vehicle Air Conditioning system, its parts and check functionality. The trainee will also learn to drive vehicle following Traffic Regulations and maintenance of good road conduct.

The trainee will also learn about Electric Vehicles (E.V) basic components and their working.

2.1 GENERAL

The Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of vocational training courses catering to the need of different sectors of economy/ Labour market. The vocational training programmes are delivered under the aegis of Directorate General of Training (DGT). Craftsman Training Scheme (CTS) with variants and Apprenticeship Training Scheme (ATS) are two pioneer schemes of DGT for strengthening vocational training.

Mechanic Motor Vehicle Trade under CTS is one of the popular courses delivered nationwide through a network of ITIs. The course is of two years duration. It mainly consists of Domain area and Core area. In the Domain area (Trade Theory & Practical) imparts professional skills and knowledge, while Core area (Employability Skills) imparts requisite core skill, knowledge and life skills. After passing out of the training programme, the trainee is awarded National Trade Certificate (NTC) by DGT which is recognized worldwide.

Candidates broadly need to demonstrate that they are able to:

- Read & interpret technical parameters/documentation, plan and organize work processes, identify necessary materials and tools;
- Perform task with due consideration to safety rules, accident prevention regulations and environmental protection stipulations;
- Apply professional knowledge, core skills & employability skills while performing the job and machining work.
- Check the job/components as per drawing for functioning identify and rectify errors in job/components.
- Document the technical parameters related to the task undertaken.

2.2 PROGRESSION PATHWAYS:

- Can join industry as Technician and will progress further as Senior Technician, Supervisor and can rise up to the level of Manager.
- Can become Entrepreneur in the related field.
- Can appear in 10+2 examination through National Institute of Open Schooling (NIOS) for acquiring higher secondary certificate and can go further for General/ Technical education.
- Can take admission in diploma course in notified branches of Engineering by lateral entry.
- Can join Apprenticeship programme in different types of industries leading to National Apprenticeship certificate (NAC).

- Can join Crafts Instructor Training Scheme (CITS) in the trade for becoming instructor in ITIs.
- Can join Advanced Diploma (Vocational) courses under DGT as applicable.

2.3 COURSE STRUCTURE:

Table below depicts the distribution of training hours across various course elements during a period of two years:

S No.	Course Element	Notional Training Hours	
		1 st Year	2 nd Year
1	Professional Skill (Trade Practical)	840	840
2	Professional Knowledge (Trade Theory)	240	300
3	Employability Skills	120	60
	Total	1200	1200

Every year 150 hours of mandatory OJT (On the Job Training) at nearby industry wherever not available then group project is mandatory.

4	On the Job Training (OJT)/ Group Project	150	150

Trainees of one-year or two-year trade can also opt for optional courses of up to 240 hours in each year for 10th/ 12th class certificate along with ITI certification, or, add on short term courses.

2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course through formative assessment and at the end of the training programme through summative assessment as notified by the DGT from time to time.

a) The Continuous Assessment (Internal) during the period of training will be done by **Formative Assessment Method** by testing for assessment criteria listed against learning outcomes. The training institute have to maintain individual *trainee portfolio* as detailed in assessment guideline. The marks of internal assessment will be as per the formative assessment template provided on www.bharatskills.gov.in

b) The final assessment will be in the form of summative assessment. The All India Trade Test for awarding NTC will be conducted by controller of examinations, DGT as per the guideline. The pattern and marking structure is being notified by DGT India from time to time. The learning outcome and assessment criteria will be basis for setting question papers for final assessment. The examiner during final examination will also check individual trainee's profile as detailed in assessment guideline before giving marks for practical examination.

2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Trade Practical and Formative assessment is 60% & for all other subjects is 33%.

2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking assessment. Due consideration should be given while assessing for teamwork, avoidance/reduction of scrap/wastage and disposal of scrap/wastage as per procedure, behavioral attitude, sensitivity to environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based comprising some of the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work
- Computer based multiple choice question examination
- Practical Examination

Evidences and records of internal (Formative) assessments are to be preserved until forthcoming examination for audit and verification by examination body. The following marking pattern to be adopted for formative assessment:

Performance Level	Evidence
(a) Marks in the range of 60 -75% to be allotted	during assessment
For performance in this grade, the candidate should produce work which demonstrates attainment of an acceptable standard of craftsmanship with occasional guidance, and due regard for safety procedures and practices.	 Demonstration of good skill in the use of hand tools, machine tools and workshop equipment. 60-70% accuracy Oachieved while undertaking different work with those demanded by the component/job. A fairly good level of neatness and consistency in the finish. Occasional support in completing the project/job.
(b) Marks in the range of 75%-90% to be allotted	ed during assessment
For this grade, a candidate should produce work which demonstrates attainment of a reasonable standard of craftsmanship, with little guidance, and regard for safety procedures and practices.	 Good skill levels in the use of hand tools, machine tools and workshop equipment. 70-80% accuracyachieved while undertaking different work with those demanded by the component/job. A good level of neatness and consistency in the finish. Little support in completing the project/job.
(c) Marks in the range of above 90% to be allot	ted during assessment
For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.	 High skill levels in the use of hand tools, machine tools and workshop equipment. Above 80% accuracy achieved while undertaking different work with those demanded by the component/job. A high level of neatness and consistency in the finish. Minimal or no support in completing the project.

Mechanic, Automobile; repairs overhauls and services motor vehicles to keep them in good running condition. Examines vehicle to ascertain nature and location of defects either by running engine or driving vehicle on road. Dismantles partially or completely defective unit or parts of vehicle such as engine, gear box, rear axle, front axle, steering assembly, radiator, etc. according to nature of repairs to be done, using hoist, jack, pullers, hand tools and other devices. Measures essential parts like cylinder, bores piston, sizes crank pins etc. using gauges, micrometre and other precision tools and gets cylinders re-bored, liners filled, valve seats refaced, bearings re-metalled etc. as necessary. Repairs or overhauls and assembles engine by performing tasks similar to those of Mechanic Petrol or Diesel Engine such as replacing defective parts, scrapping bearings, grinding valves, setting timing, cleaning injectors, tuning carburettor etc. according to maker's specification. Replaces or repairs defective parts of gear box, rear axle, steering mechanism etc. and sets them right ensuring correct alignment, clearance, meshing of gears, specified movements and operations. Relines and builds brakes, sets wheel alignment, adjust, steering, clutch, hand brakes etc. fits new or repaired accessories and body parts, makes electrical connection, and performs other tasks to effect repairs. Lubricates, joints, tightens loose parts, tests performance of vehicle by driving on road and makes necessary adjustments to attain desired standard. May assemble complete vehicle from finished components.

Maintenance Technician-Service Workshop; maintains and manages tools and equipment used in the workshop.

Auto Service Technician-Mechanic; is responsible for the repair and routine servicing and maintenance (including electrical and mechanical aggregates) of vehicles.

Mechanic Motor Vehicle; repairs overhauls and services motor vehicles to keep them in good running condition.

Fitter Automobile; attends to minor repairs to motor vehicles under guidance of Mechanic Automobile. Receives instructions from Mechanic, Automobile about tasks to attend. Jacks up vehicle to required height for repair in convenient position where necessary. Removes nuts and bolts to dismantle parts such as water pump assembly, fuel pumps assembly, distributor, carburettor, sparking plugs, starter motors, generator, steering gear, brakes, clutch, transmission and suspension systems, etc. Grinds valve and decarbonises cylinder head under guidance of mechanic and changes oil of engines and transmission system. Tightens loose parts, lubricates joints, does minor repairs, replacements and adjustments and performs simple fitting operations such as filing, chipping, grinding etc. May work in workshops or garage. May drive vehicle on road.

May be designated as Service Mechanic if engaged in cleaning, polishing, oiling and greasing vehicles and do minor routine adjustments as included in servicing.

Motor Vehicle Mechanics, Other; perform number of routine and low skilled tasks in repairing and overhauling motor vehicles such as removing mudguards, bonnets etc. to facilitate working, adjusting alternator and fan belt, assist in bleeding

of brakes, draining gear box and oil pump, removing and resetting road spring, etc., and are designated as Motor Mechanic Helper, or Garage Boy according to nature of work done.

4. GENERAL INFORMATION

Name of the Trade	Mechanic Motor Vehicle
Name of the frace	Weethanic Wotor Vernicle
Trade Code	DGT/1008
NCO - 2015	7231.9900, 7231.0100, 7231.0101, 7231.0107, 7231.0400
NOS Covered	ASC/N1404, ASC/N1405, ASC/N1438, ASC/N9438, ASC/N9435, ASC/N9436, ASC/N9420, ASC/N9421, ASC/N9437, ASC/N1440, ASC/N9439
NSQF Level	Level – 4
Duration of Craftsmen Training	Two Years (2400 hours + 300 hours OJT/Group Project)
Entry Qualification	Passed 10th class examination with Science and Mathematics or with vocational subject in same sector or its equivalent.
Minimum Age	14 years as on first day of academic session.
Eligibility for PwD	LD, LC, DW, AA, LV, DEAF
Unit Strength (No. Of Students)	24 (There is no separate provision of supernumerary seats)
Space Norms	210 Sq. m (Including Parking)
Power Norms	4.8 KW
Instructors Qualification for	
1. Mechanic Motor Vehicle Trade	B.Voc/Degree in Automobile/ Mechanical Engineering from AICTE/UGC recognized Engineering College/ university with one-year experience in the relevant field. OR 03 years Diploma in Automobile/ Mechanical Engineering from AICTE recognized board of technical education or relevantAdvanced Diploma (Vocational) from DGT with two years' experience in the relevant field. OR NTC/NAC passed in the trade of "Mechanic Motor Vehicle" with three years' experience in the relevant field. Essential Qualification: Relevant regular/RPL variants ofNational Craft Instructor

	Certificate (NCIC) under DGT. Must Possess valid LMV driving
	License.
	NOTE: - Out of two Instructors required for the unit of 2(1+1), one
	must have Degree/Diploma and other must have NTC/NAC
	qualifications. However, both of them must possess NCIC in any
	of its variants.
2. Workshop Calculation &	B.Voc/Degree in Engineering from AICTE/UGC recognized
Science	Engineering College/ university with one-year experience in the relevant field.
	OR
	03 years Diploma in Engineering from AICTE / recognized board of technical education or relevant Advanced Diploma (Vocational) from DGT with two years' experience in the relevant field.
	OR
	NTC/ NAC in any one of the engineering trades with three years' experience.
	Essential Qualification:
	Regular / RPL variants of National Craft Instructor Certificate
	(NCIC) in relevant trade
	OR
	Regular / RPL variants NCIC in RoDA or any of its variants under DGT
3. Engineering Drawing	B.Voc/Degree in Engineering from AICTE/UGC recognized Engineering College/ university with one-year experience in the relevant field.
	OR
	03 years Diploma in Engineering from AICTE / recognized board of technical education or relevant Advanced Diploma (Vocational) from DGT with two years' experience in the relevant field.
	OR
	NTC/ NAC in any one of the Mechanical group (Gr-I) trades categorized under Engg. Drawing'/ D'man Mechanical / D'man Civil' with three years' experience.
	Essential Qualification:
	Regular / RPL variants of National Craft Instructor Certificate (NCIC) in relevant trade
	OR
	Regular / RPL variants of NCIC in RoDA / D'man (Mech /civil) or
	any of its variants under DGT.

4. Employability Skill	MBA/ BBA / Any Graduate/ Diploma in any discipline with Two years' experience with short term ToT Course in Employability Skills.
	(Must have studied English/ Communication Skills and Basic Computer at 12th / Diploma level and above)
	OR
	Existing Social Studies Instructors in ITIs with short term ToT Course in Employability Skills.
5. Minimum Age for Instructor	21 Years
List of Tools and Equipment	As per Annexure – I

Learning outcomes are a reflection of total competencies of a trainee and assessment will be carried out as per the assessment criteria.

5.1LEARNING OUTCOMES

FIRST YEAR:

- 1. Check & perform Measuring & marking by using various Measuring & Marking tools(*Vernier Calliper, Micrometer, Telescope gauges, Dial bore gauges, Dial indicators, straightedge, feeler gauge, thread pitch gauge, vacuum gauge, tire pressure guage*)following safety precautions. (NOS: ASC/N1404)
- 2. Plan & perform basic fastening & fitting operation by using correct hand tools, Machine tools & equipments. (NOS: ASC/N1405)
- 3. Test various electrical/ electronic components using proper measuring instruments and compare the data using standard parameters. (NOS: ASC/N1438)
- 4. Check & Interpret Vehicle Specification data and VIN and Select & operate various Service Station Equipments. (NOS: ASC/N1404)
- 5. Dismantle & assemble of Engine from vehicle (LMV/HMV) along with other accessories. (NOS: ASC/N1405)
- 6. Overhaul Engine and check functionality. (NOS: ASC/N1405)
- 7. Trace, Test & Repair Cooling and Lubrication System of engine. (NOS: ASC/N1404)
- 8. Trace & Test Intake and Exhaust system of engine. (NOS: ASC/N1405)
- 9. Service Fuel System and check proper functionality. (NOS: ASC/N1405)
- 10. Test Engine Performance and set idling speed. (NOS: ASC/N1405)
- 11. Monitor emission of vehicle and execute different operation to obtain optimum pollution as per emission norms. (NOS: ASC/N9435)
- 12. Carryout overhauling of Alternator and Starter Motor. (NOS: ASC/N9436)
- 13. Diagnose & rectify the defects in LMV/HMV to ensure functionality of vehicle. (NOS: ASC/N1404, ASC/N1405, ASC/N1438)
- 14. Read and apply engineering drawing for different application in the field of work. (NOS: ASC/N9420)
- 15. Demonstrate basic mathematical concept and principles to perform practical operations. Understand and explain basic science in the field of study. (NOS: ASC/N9421)

SECOND YEAR:

1. Plan & perform maintenance, diagnosis and servicing of transmission system. (NOS: ASC/N1404, ASC/N1405)

- 2. Plan & perform maintenance, diagnosis and servicing of Vehicle Control System. (NOS: ASC/N9437)
- 3. Troubleshoot vehicle Engine components and ascertain repair. (NOS: ASC/N9438)
- 4. Plan & service Electronic Control Unit and check functionality. (NOS: ASC/N1438)
- 5. Diagnose & rectify the defects in vehicle to ensure functionality of vehicle. (NOS: ASC/N1438
- 6. Carryout overhauling of charging system. (NOS: ASC/N1438)
- 7. Carryout overhauling of starting system. (NOS: ASC/N1438)
- 8. Troubleshoot electrical components of vehicle and ascertain repair. (NOS: ASC/N1438)
- 9. Overhaul, service and testing Vehicle Air Conditioning system, its parts and check functionality. (NOS: ASC/N1438)
- 10. Drive vehicle following Traffic Regulations and maintenance of good road conduct. (NOS: ASC/N1440)
- 11. Identify and study of Electric Vehicle components and Performance comparison of EV and IC engine vehicles. (Components of Electric Vehicle such as Motor, Motor Controller, Battery Pack, Battery Management System, Charging System etc.) (NOS: ASC/N9439)
- 16. Read and apply engineering drawing for different application in the field of work. (NOS: ASC/N9420)
- 12. Demonstrate basic mathematical concept and principles to perform practical operations. Understand and explain basic science in the field of study. (NOS: ASC/N9421)

	LEARNING OUTCOMES	ASSESSMENT CRITERIA
		FIRSTYEAR
1.	Check & perform Measuring & marking by using various Measuring & Marking tools (Vernier Caliper, Micrometer, Telescope gauges, Dial bore gauges, Dial indicators, straightedge, feeler gauge, thread pitch gauge, vacuum gauge, tire pressure gauge.) following safety precautions. (NOS: ASC/N1404)	Plan the working principles of measuring instruments and special tools required for auto workshop. Select, care and use of measuring instrument. Set up the measured value with workshop manual and quality concepts and proper safety. Carry out decision on whether to replace or not.
2.	Plan & perform basic fastening & fitting operation by using correct hand tools, Machine tools & equipment. (NOS: ASC/N1405)	Describe the purpose, use of auto hand tools. List the safety rules for hand tools. Select the correct tool for the job. Set up the tacked pieces in specific position. Joint components by Brazing, Soldering, Riveting as per given drawing. Produce components by different operation (Drilling, Reaming, Taping, Dieting)
3.	Test various electrical/ electronic components using proper measuring instruments and compare the data using standard parameters. (NOS: ASC/N1438)	Plan and prepare as per procedure and safety methods of soldering the cable ends using an electric soldering iron. Use crimping tool to make a circuit joint. Explain the connection of an ammeter, voltmeter, and ohmmeter in a circuit trouble shooting. State open & short circuit, series and parallel circuits. Verify DC series & parallel circuits and its characteristics. Check out the open and short circuits in the lighting circuits. Verify ohm's law and measure resistance using rheostat. Check the voltage drop in the auto electrical system by using

		multimeter.
		Trace the auto electrical components by using vehicle wiring
		circuits.
		Check the condition of the solenoid switch in the starting
		system.
		Determine the forward to reverse resistance ratio of diodes
		and identify good / bad diodes.
		Perform battery charging.
4.	Check & Interpret Vehicle	Identify of different type of vehicle.
	Specification data & VIN and	Identify the different vehicle specification data and
	Select & operate various	information.
	Service Station Equipments.	Demonstrate the garage, service station different equipment.
	(NOS: ASC/N1404)	
5.	Dismantle & assemble of	Demonstrate safe handling of lifting equipments.
	Engine from vehicle	Identify the problems in the vehicle.
	(LMV/HMV) along with other	Perform the periodic testing of lifting equipments.
	accessories.	Judge whether this Engine needs overhaul or not.
	(NOS: ASC/N1405)	Perform dispose the used engine oil and safety measures in
		disposal.
		Perform on vehicle Engine Tests to analyze need of Overall.
		Perform sequencing and identifying parts at the time of
		dismantle and assemble.
6.	Overhaul Engine and check	Remove accessories fitted to the engine prior to engine
	functionality.	removal.
	(NOS: ASC/N1405)	Align the left hook of the crane with engine lifting bracket.
		Remove the engine mountings.
		Remove the engine from vehicle.
		Mount the engine on the vehicle.
		Align and fit the gear box to the engine.
		Refit the accessories to the engine.
		Set the Timing of the Engine.
		Overhaul Valve Actuating Mechanism (Hydraulic latch
		actuator).

7. Trace, Test & Repair Cooling	Overhauling of Radiator/ Recovery tank water pump, oil
and Lubrication System of	pump, air cleaner.
engine.	Check the engine oil pressure at different r.p.ms.
(NOS: ASC/N1404)	Overhaul the Oil Pump.
	Set Checking &Top up coolant, Draining & refilling coolant.
	Testing cooling system pressure & Thermostat.
	Cleaning & reverse flushing. Overhauling water pump and
	refitting and repairs to oil flow pipe lines and unions if
	necessary.
	Check proper functioning of radiator fan (Mechanical/
	Electrical / viscous / belt drive).
8. Trace &Test Intake and	Overhauling of manifolds, silencer and tail pipe, air
Exhaust system of engine.	compressor, air exhauster and inspect parts of air exhauster,
(NOS: ASC/N1405)	turbo charger from vehicle.
	Overhauling of air filter, clean & refit air cooler, fuel filter
	assembly and replace filter elements.
	Remove and replace EGR valve, Use Smoke meter to test
	emission from engine.
9. Service Fuel System and check	Overhauling fuel feed pump, fuel injector pump.
proper functionality.	Testinjectors, check the injection timing by the spill cut off
(NOS: ASC/N1405)	method.
10. Test Engine Performance and	Start engine, adjust idling speed.
set idling speed.	Overhaul the Governor (Mechanical & Pneumatic).
(NOS: ASC/N1405)	Set the Engine Timing.
	Check performance of engine off load.
	Servicing of the cylinder and replace the defective parts.
11. Monitor emission of vehicle	Check vacuum pump for its functioning.
and execute different	Perform troubleshooting of EVAP Canister.
operation to obtain optimum	Inspect PCV hose, inspect PCV Valve and check for vacuum.
pollution as per emission	Clean the PCV valve and replace if required.
norms.	Inspect & clean EGR.
(NOS: ASC/N9435)	·

12. Carryout overhauling of	Trace the circuit from the alternator to the battery.
Alternator and Starter Motor.	Perform servicing of starter motor.
(NOS: ASC/N9436)	Perform servicing of alternator and test its performance.
	Check belt condition and replace as per requirement.
13. Diagnose & rectify the defects	Plan and diagnose the problem if engine not starting.
in LMV/HMV to ensure	Diagnose high fuel consumption and engine overheating.
functionality of vehicle.	Diagnose for excessive oil consumption and low/high engine
(NOS: ASC/N1404,	oil pressure.
ASC/N1405, ASC/N1438)	Diagnose for abnormal engine noise.
	Diagnose for engine's poor performance.
14. Demonstrate basic	Solve different mathematical problems
mathematical concept and	Explain concept of basic science related to the field of study
principles to perform practical	
operations. Understand and	
explain basic science in the	
field of study.	
(NOS: ASC/N9421)	
15. Read and apply engineering	Read & interpret the information on drawings and apply in
drawing for different	executing practical work.
application in the field of	
work.	Read & analyze the specification to ascertain the material
(NOS: ASC/N9420)	requirement, tools and assembly/maintenance parameters.
	Encounter drawings with missing/unspecified key information
	and make own calculations to fill in missing
	dimension/parameters to carry out the work.
	SECOND YEAR
16. Plan & perform maintenance,	Select and wear suitable personal protective equipment and
diagnosis and servicing of	use vehicle coverings throughout all removal and
transmission system.	replacement activities.
(NOS: ASC/N1404, ASC/N1405)	Work in compliance with standard safety norms.
A3C/N1403)	Carry out their removal and replacement activities by
	reviewing:
	Vehicle technical data
	Removal and replacement procedure

Legal requirements

Use technical information to support the overhauling of light vehicle/Heavy Vehicle transmission units.

Select tools and materials for the job and make this available for use in a timely manner.

Use the tools and equipment in the way specified by manufacturers to overhaul light vehicle/Heavy vehicle transmission unit.

Ascertain the assessment of the dismantled unit identifies accurately its condition and suitability for overhaul.

Conduct appropriate and target oriented discussions with higher authority and within the team, where an overhaul is uneconomic or unsatisfactory to perform.

Perform all overhauling of light vehicle transmission units, adhering to the specifications and tolerances for the vehicle and following:

- a. Manufacturer's approved overhauling methods
- b. Standard repair methods
- c. health and safety requirements.
- d. workplace procedures

Range:

- a. Gear box
- b. Single plate clutch assembly
- c. Diaphragm clutch assembly
- d. Constant mesh Gear box
- e. synchromesh gear box
- f. Gear linkages
- g. Propeller shaft
- h. Universal Slip Joint
- i. Rear axle assembly
- j. Differential assembly

Use testing methods that comply with the manufacturer's requirements.

Adjust the unit's components correctly where necessary to ensure that they operate to meet the vehicle operating requirements.

17. Plan & perform maintenance, diagnosis and servicing of Vehicle Control System.
(NOS: ASC/N9437)

Select and wear suitable personal protective equipment and use vehicle coverings throughout all removal and replacement activities.

Work in compliance with standard safety norms.

Use technical information to support the overhauling of light vehicle/Heavy Vehicle steering and suspension system.

Carryout their removal and replacement activities by reviewing:

- Vehicle technical data
- Removal and replacement procedures
- Legal requirements

Use the tools and equipment in the way specified by manufacturers to overhaul steering, suspension and braking system.

Ascertain the assessment of the dismantled unit identifies accurately its condition and suitability for overhaul.

Perform all overhauling of light vehicle Chassis units, adhering to the specifications and tolerances for the vehicle and following:

- a. The manufacturer's approved overhauling methods
- b. Standard repair methods
- c. health and safety requirements.
- d. workplace procedures

Range:

- a) Shackle
- b) Leaf spring
- c) Front axle
- d) Front and rear suspension
- e) Steering Gearbox- worm and roller type
- f) Steering Gearbox- Reticulating ball type
- g) Master cylinder
- h) Tandem Master cylinder
- i) Front and rear brake
- j) Wheel cylinder
- k) Vacuum booster
- I) Air servo unit
- m) Air tank (reservoir)
- n) Brake valve

	o) Hand/parking brake
	p) Single brake chamber
	q) Slack adjuster
	r) Disc brake
	Carry out wheel balancing to within acceptable limits.
	Carryout the recommended trouble shooting procedure as
	per Workshop manual for a) Abnormal wear b) Wheel
	wobbling c) Poor self centering d) Hard steering.
	Rectify the defects following the vehicle manufacture
	standard procedure.
	Use testing methods that comply with the manufacturer's
	requirements.
	Adjust the unit's components correctly where necessary to
	ensure that they operate to meet the vehicle operating
	requirements.
	Ensure replaced driveline units and assemblies conform to
	the vehicle operating specification and any legal
	requirements.
18. Troubleshoot vehicle Engine	Carryout the recommended trouble shooting procedure as
components and ascertain	per Workshop manual for:
repair.	a) Engine Not starting – Mechanical & Electrical
(NOS: ASC/N9438)	causes,
, , , ,	b) Engine Noise.
	c) High fuel consumption,
	d) Engine overheating,
	e) Low Power Generation,
	, ,
	f) Excessive oil consumption,
	f) Excessive oil consumption, g) Low/High Engine Oil Pressure.
	g) Low/High Engine Oil Pressure,
	g) Low/High Engine Oil Pressure, Rectify the defects following the vehicle manufacture
	g) Low/High Engine Oil Pressure,
19 Plan & service Flectronic	g) Low/High Engine Oil Pressure, Rectify the defects following the vehicle manufacture standard procedure.
19. Plan & service Electronic	g) Low/High Engine Oil Pressure, Rectify the defects following the vehicle manufacture standard procedure. Identify the MPFI components by its name and Locate the
Control System and check	g) Low/High Engine Oil Pressure, Rectify the defects following the vehicle manufacture standard procedure. Identify the MPFI components by its name and Locate the MPFI Components in the given engine.
Control System and check functionality.	g) Low/High Engine Oil Pressure, Rectify the defects following the vehicle manufacture standard procedure. Identify the MPFI components by its name and Locate the MPFI Components in the given engine. Ascertain and select tools and materials for the job and make
Control System and check	g) Low/High Engine Oil Pressure, Rectify the defects following the vehicle manufacture standard procedure. Identify the MPFI components by its name and Locate the MPFI Components in the given engine.

	Connect the scan tool to the Data link connector of given engine.		
	Read the Error code.		
	Test the reference voltage and continuity of the circuit as per		
	vehicle wiring circuit.		
	Repair/Replace the defective part or wiring.		
	Erase the error memory.		
	Start and check the engine.		
20. Diagnose & rectify the defects	Ascertain and select tools and materials for the job and make		
in vehicle to ensure	this available for use in a timely manner.		
functionality of vehicle.	Plan work in compliance with standard safety norms.		
(NOS: ASC/N1438)	Troubleshoot the Engine for Engine Crank but will not start.		
	Check Ignition Timing of Engine.		
	Check the function of Mal Indication Lamp (MIL), Oil pressure		
	warning light, charge indication light, Temperature warning		
	light/gauge, Seat belt warning light, ABS warning light,		
	Parking light, fuel level gauge.		
	Test the various sensors fitted on the given engine using		
	multi meter/scan tool.		
21. Carryout overhauling of	Check Charging system for proper functioning as per		
charging system.	manufacturer guidelines.		
(NOS: ASC/N1438)	Check alternator for proper functioning.		
	Remove alternator from the vehicle.		
	Overhaul and check alternator for proper function.		
	Refit Alternator to the vehicle and check for functioning.		
22. Carryout overhauling of	Check starting system for proper functioning as per		
starting system.	manufacturer guidelines.		
(NOS: ASC/N1438)	Check starter for proper functioning.		
	Remove starter from the vehicle.		
	Overhaul and check starter for proper function.		
	···		
	Refit starter to the vehicle and check for functioning.		
23. Troubleshoot electrical			
	Ascertain and select tools and materials for the job and make		

components of vehicle and	this available for use in a timely manner. Plan work in compliance with standard safety norms.		
ascertain repair.			
(NOS: ASC/N1438)	Carryout the diagnostic procedure for the following troubles		
	in the electrical accessories:		
	- No horn, poor horn, continuous horn.		
	- Wiper and washer no operation, continuous		
	operation, Intermittent operation.		
	- Power window no operation.		
	- Power Door lock no operation.		
	- Immobilizer system and keyless entry no operation.		
	- Trouble(Error indication) in Automatic seat belt		
	system.		
	 Trouble(Error indication) in Air bag system 		
24. Overhaul, service and testing	Ascertain and select tools and materials for the job and make		
Vehicle Air Conditioning	this available for use in a timely manner.		
system, its parts and check	Plan work in compliance with standard safety norms.		
functionality.	Carryout the diagnostic procedure for the following troubles:		
(NOS: ASC/N1438)	- No cooling		
	- Intermittent cooling		
	- Insufficient cooling		
	- Abnormal noise from compressor, magnetic clutch,		
	condenser, evaporator and blower motor		
	- High pressure gauge-pressure High and low		
	- Low pressure gauge-pressure High and low

	Dial bore gauges,		maintenance and	and time table
	Dial indicators,		cleanliness of Workshop.	Occupational Safety &
	straightedge, feeler	2	(10Hrs)	Health
	gauge, thread pitch	3.	Practice operation of	Importance of Safety and general Precautions to be
	gauge, vacuum gauge, tire pressure		different workshop equipment. (05 Hrs)	observed in the shop. Basic
	gauge.) following	4.		first aid, safety signs - for
	safety precautions.	٦.	saving Tips of ITI	Danger, Warning, caution &
	(Mapped NOS:		electricity Usage.(05Hrs)	personal safety message. Safe
	ASC/N1404)		ciectricity obuge.(obrita)	handling of Fuel Spillage, Fire
	7.00,112.01,			extinguishers used for
				different types of fire. Safe
				disposal of toxic dust, safe
				handling and Periodic testing
				of lifting equipment,
				Authorization of Moving
				&road testing vehicles.
				Electrical safety tips.
				Introduction to road safety
				and Automotive

	emissions.(08 hrs)
5. Practice using all marking	Hand & Power Tools:-
aids, like steel rule with	Marking scheme, Marking
spring callipers, dividers,	material-chalk, Prussian blue.
scriber, punches, Chisel	Cleaning tools- Scraper, wire
etc.(15 Hrs)	brush, Emery paper,
6. Layout a work piece- for	Description, care and use of
line, circle, arcs and	Surface plates, steel rule,
circles. (5 Hrs)	measuring tape, try square.
7. Practice to remove wheel	Callipers-inside and outside.
lug nuts with use of an	Dividers, surface gauges,
air impact wrench.(15	scriber, punches-prick punch,
Hrs)	centre punch, pin punch,
8. Practice on General	hollow punch, number and
workshop tools & power	letter punch. Chisel-flat,
tools. (10 Hrs)	cross-cut. Hammer- ball pein,
	lump, mallet. Screw drivers-
	blade screwdriver, Phillips
	screw driver, Ratchet
	screwdriver. Allen key, bench
	vice & C-clamps, Spanners-
	ring spanner, open end
	spanner & the combination
	spanner, universal adjustable
	open end spanner. Sockets &
	accessories, Pliers -
	Combination pliers, multi
	grip, long nose, flat-nose,
	Nippers or pincer pliers, Side
	cutters, Tin snips, Circlips
	pliers, external circlips pliers.
	Air impact wrench, air
	ratchet, wrenches- Torque
	wrenches, pipe wrenches, car
	jet washers Pipe flaring &
	cutting tool, pullers-Gear and
	bearing. (10 hrs)
9. Carryout Measuring	Systems of measurement,

practice on Cam height,	Description, care & use of -
Camshaft Journal dia,	Micrometers- Outside and
crankshaft journal dia,	depth micrometer,
Valve stem dia, piston	Micrometer adjustments,
diameter, and piston pin	Vernier callipers, Telescope
dia with outside	gauges, Dial bore gauges, Dial
Micrometers. (5 Hrs)	indicators, straightedge,
10. Carryout Measuring	feeler gauge, thread pitch
practice on the height of	gauge, vacuum gauge, tire
the rotor of an oil pump	pressure gauge. (12 hrs)
from the surface of the	
housing or any other	
auto component	
measurement with depth	
micrometer. (5 Hrs)	
11. Carryout Measuring	
practice on valve spring	
free length. (5 Hrs)	
12. Carryout Measuring	
practice on cylinder bore	
for taper and out-of-	
round with Dial bore	
gauges.(5 Hrs)	
13. Perform Measuring	
practice to measure wear	
on crankshaft end play,	
crankshaft run out, and	
valve guide with dial	
indicator. (5 Hrs)	
14. Perform Measuring	
practice to check the	
flatness of the cylinder	
head is warped or	
twisted with straightedge	
is used with a feeler	
gauge. (5 Hrs)	
	1

15. Perform Measuring

practice to check the end

Professional	Plan & perform	gap of a piston ring, piston-to-cylinder wall clearance with feeler gauge. (5 Hrs) 16. Practice to check engine manifold vacuum with vacuum gauge. (5 Hrs) 17. Practice on Marking and	Drilling machine - Description
Skill 50 Hrs; Professional Knowledge 08 Hrs	basic fastening & fitting operation by using correct hand tools, Machine tools &equipments. (Mapped NOS: ASC/N1405)	Drilling clear and Blind Holes, Sharpening of Twist Drills Safety precautions to be observed while using a drilling machine. (20 Hrs) 18. Practice on Tapping a Clear and Blind Hole, Selection of tape drill Size, use of Lubrication, Use of stud extractor. (20 Hrs) 19. Practice Cutting Threads on a Bolt/ Stud. Adjustment of two piece Die, Reaming a hole/ Bush to suit the given pin/ shaft, scraping a given machined surface. (10 Hrs)	and study of Bench type Drilling machine, Portable electrical Drilling machine, drill holding devices, Work Holding devices, Drill bits. Taps and Dies: Hand Taps and wrenches, Calculation of Tap drill sizes for metric and inch taps. Different type of Die and Die stock. Screw extractors. Hand Reamers — Different Type of hand reamers, Drill size for reaming, Lapping, Lapping abrasives, type of Laps. (08 hrs)
Professional Skill 140 Hrs; Professional Knowledge 30 Hrs	Test various electrical/ electronic components using proper measuring instruments and compare the data using standard parameters. (Mapped NOS:	20. Practice in joining wires using soldering Iron, Construction of simple electrical circuits, measuring of current, voltage and resistance using digital multimeter, practice continuity test for fuses, jumper wires, fusible links, and circuit	Basic electricity, Electricity principles, Ground connections, Ohm's law, Voltage, Current, Resistance, Power, Energy. Voltmeter, ammeter, Ohmmeter Mulitmeter, Conductors & insulators, Wires, Shielding, Length vs. resistance, Resistor ratings (07 hrs)

ASC/N1438)	breakers. (40 Hrs)	
	21. Diagnose series, parallel,	Fuses & circuit breakers,
	series-parallel circuits	Ballast resistor, Stripping wire
	using Ohm's law, Check	insulation, cable colour codes
	electrical circuit with a	and sizes, Resistors in Series
	test lamp, perform	circuits , Parallel circuits and
	voltage drop test in	Series-parallel circuits,
	circuits using multimeter,	Electrostatic effects,
	measure current flow	Capacitors and its
	using multimeter	applications, Capacitors in
	/ammeter, use of service	series and parallel. (07 hrs)
	manual wiring diagram	
	for troubleshooting. (20	
	Hrs)	
	22. Carryout Cleaning and	Description of Chemical
	topping up of a lead	effects, Batteries & cells, Lead
	acidbattery, testing	acid batteries & Sealed
	battery with hydrometer.	Maintenance Free (SMF)
	(15 Hrs)	batteries, Magnetic effects,
	23. Connect battery to a	Heating effects, Thermo-
	charger for battery	electric energy, Thermisters,
	charging, Inspecting &	Thermo couples,
	testing a battery after	Electrochemical energy,
	charging, Measure and	Photo-voltaic energy, Piezo-
	Diagnose the cause(s) of	electric energy,
	excessive Key-off battery	Electromagnetic induction,
	drain (parasitic draw)	Relays, Solenoids, Primary &
	and do corrective action.	Secondary windings,
	Testing of relay and	Transformers, stator and
	solenoids and its circuit.	rotor coils.
	(20 Hrs).	Basic electronics: Description
	24. Test diode for	of Semi conductors, Solid
	functionality. (05 Hrs)	state devices- Diodes,
		Transistors, (08 hrs)
	25. Identify Hydraulic and	Introduction to Hydraulics &
	pneumatic components	Pneumatics: - Definition of
	used in vehicle. (20	Pascal law, pressure, Force,
	Hrs)	viscosity. Description,

Professional	Check & Interpret	 26. Trace hydraulic circuit on hydraulic jack, hydraulic power steering, and Brake circuit. (15 Hrs) 27. Identify components in Air brake systems. (05 Hrs) 	symbols and application in automobile of Gear pump-Internal & External, single acting, double acting & Double ended cylinder; Pressure relief valve, Non return valve, Flow control valve used in automobile. Pneumatic Symbols, Description and function of air Reciprocating Compressor. Function of Air service unit (FRL-Filter, Regulator & Lubricator). (08 hrs)
Professional Skill 25 Hrs; Professional Knowledge 06 Hrs	Check & Interpret Vehicle Specification data & VIN and Select & operate various Service Station Equipments. (Mapped NOS: ASC/N1404)	ofdifferent type of Vehicle. (10 Hrs) 29. Perform Demonstration of vehicle specification data(10 Hrs) 30. Perform Identification of vehicle information Number (VIN). Demonstration of Garage, Service station equipments Vehicle hoists – Two post and four post hoist, Engine hoists, Jacks, Stands. (05 Hrs)	vehicles on the basis of load as per central motor vehicle rule, wheels, final drive, and fuel used, axles, position of engine and steering transmission, body and load. Brief description and uses of Vehicle hoists – Two post and four post hoist, Engine hoists, Jacks, Stands.(06 hrs)
Professional Skill 50 Hrs;	Dismantle & assemble of Engine	31. Identify parts in a Diesel engine of LMV/ HMV. (07	Introduction to Engine: Description of internal &
Professional Knowledge 10 Hrs	from vehicle (LMV/HMV) along with other accessories.	Hrs) 32. Identify parts in a Petrol engine of LMV/ HMV. (07Hrs) 33. Practice on starting and	external combustion engines, Classification of IC engines, Principle & working of 2&4- stroke diesel engine (Compression ignition Engine
	(Mapped NOS:	stopping of engines. (07	(C.I)), Principle of Spark

ASC/N1405)	Hrs)	Ignition Engine(SI),
7.55,2.55,	34. Observe and report the	differentiate between 2-
	reading of Tachometer,	stroke and 4 stroke, C.I
	Odometer, temp and	engine and S.I Engine, Direct
	Fuel gauge under ideal	injection and Indirect
	and on load condition.	injection, Technical terms
	(07 Hrs)	used in engine, Engine
	35. Practice identification of	specification. Study of various
	difference in	gauges/instrument on a dash
	components of Petrol	board of a vehicle-
	and Diesel Engines. (07	Speedometer, Tachometer,
	Hrs)	Odometer and Fuel gauge,
	36. Practice on dismantling	and Indicators such as
	engine of LMV/HMV as	gearshift position, Seat belt
	per procedure. (15 Hrs)	warning light, Parking-brake-
	por processing (20 mg,	engagement warning light
		and an Engine-malfunction
		light.
		Different type of starting and
		stopping method of Diesel
		Engine
		Procedure for dismantling of
		diesel engine from a vehicle.
		Petrol Engine Basics:
		4-stroke spark-ignition
		engines- Basic 4-stroke
		principles. Spark-ignition
		engine components- Basic
		engine components, Engine
		cams & camshaft, Engine
		power transfer, Scavenging,
		Counter weights, Piston
		components.
		Intake & exhaust systems -
		Electronic fuel injection
		systems, Exhaust systems.
		Intake system components,

			Air cleaners, Carburettor air
			cleaners, EFI air cleaners,
			Intake manifolds, Intake air
			heating.
			Gasoline Fuel Systems:
			Description of Gasoline fuel,
			Gasoline fuel characteristics,
			Controlling fuel burn,
			Stoichiometric ratio, Air
			density, Fuel supply system,
			Pressure &vacuum.(10 hrs)
Professional	Overhaul Engine	37. Overhauling of cylinder	Engine Components:
Skill 175 Hrs;	and check	head assembly, use of	Description and
D (' 1	functionality.	service manual for	Constructional feature of
Professional	(Mapped NOS:	clearance and other	Cylinder head, Importance of
Knowledge	ASC/N1405)	parameters, Practice on	Cylinder head design, Type of
32 Hrs		removing rocker arm	Petrol and Diesel combustion
		assembly manifolds. (10	chambers, Effect on size of
		Hrs)	Intake & exhaust passages,
		38. Perform Checking valve	Head gaskets. Importance of
		seats & valve guide –	Turbulence
		Replacing the valve if	Valves & Valve Trains-
		necessary check valve	Description and Function of
		overlap. Testing leaks of	Engine Valves, different
		valve seats for leakage –	types, materials, Type of
		Dismantle rocker shaft	valve operating mechanism,
		assembly -clean & check	Importance of Valve seats,
		rocker shaft-and levers,	and Valve seats inserts in
		for wear and cracks and	cylinder heads, Valve stem oil
		reassemble. (10 Hrs)	seals, size of Intake valves,
		39. Check valve springs,	Valve trains, Valve- timing
		tappets, push rods,	diagram, concept of Variable
		tappet screws and valve	valve timing. Description of
		stem cap. (10 Hrs)	Camshafts &drives
		40. Reassemble valve parts	,Description of Overhead
		in sequence, refit	camshaft, importance of Cam
		cylinder head and	lobes, Timing belts & chains,
		manifold & rocker arm	Timing belts & tensioners. (08

assembly, adjustable	hrs)
valve clearances, starting	
engine after	
adjustments. (10 Hrs)	
41. Practice Overhauling	Description & functions of
piston and connecting	different types of pistons ,
rod Assembly. Use of	piston rings and piston pins
service manual for	and materials. Used
clearance and other	recommended clearances for
parameters(5 Hrs)	the rings and its necessity
42. Practice on removing oil	precautions while fitting
sump and oil pump –	rings, common troubles and
clean the sump. Practice	remedy. Compression ratio.
on removing the big end	Description & function of
bearing, connecting rod	connecting rod, importance
with the piston. (5 Hrs)	of big- end split obliquely,
43. Practice on removing the	Materials used for connecting
piston rings; Dismantle	rods big end & main bearings.
the piston and	Shells piston pins and locking
connecting rod. Check	methods of piston pins. (04
the side clearance of	hrs)
piston rings in the piston	
groove & lands for wear.	
Check piston skirt and	
crown for damage and	
scuffing, clean oil holes.	
(5 Hrs)	
44. Measure -the piston ring	
close gap in the cylinder,	
clearance between the	
piston and the liner,	
clearance between crank	
pin and the connecting	
rod big end bearing. (5	
Hrs)	
45. Check connecting rod for	
bend and twist.	
Assemble the piston and	

connecting rod assembly.	
(5 Hrs)	
46. Carryout Overhauling of	Description and function of
crankshaft by referring	Crank shaft, camshaft, Engine
service manual for	bearings- classification and
clearance and other	location – materials used &
parameters. (15 Hrs)	composition of bearing
47. Practice on removing	materials- Shell bearing and
damper pulley, timing	their advantages- special
gear/timing chain,	bearings material for diesel
flywheel, main bearing	engine application bearing
caps, bearing shells and	failure & its causes-care &
crankshaft from engine	maintenance. Crank-shaft
checking oil retainer and	balancing, Firing order of the
thrust surfaces for	engine. (08 hrs)
wear.(15 Hrs)	
48. Measure crank shaft	
journal for wear, taper	
and ovality, Checking	
crankshaft for fillet radii,	
bend & twist. (10 Hrs)	
49. Perform Checking of	Description and function of
flywheel and mounting	the fly wheel and vibration
flanges, spigot, bearing.	damper. Crank case & oil
(10 Hrs)	pump, gears timing mark,
50. Check vibration damper	Chain sprockets, chain
for defects, Practice on	tensioner etc. Function of
removing cam shaft from	clutch & coupling units
engine block, Check for	attached to flywheel. (08 hrs)
bend & twist of	
camshaft. (10 Hrs)	
51. Perform Inspection of	
cam lobe, camshaft	
journals and bearings	
and measure cam lobe	
lift. (10 Hrs)	
52. Practice Fixing bearing	
inserts in cylinder block	

		& cap check nip and	
		spread clearance & oil	
		holes & locating lugs fix	
		crank shaft on block-	
		torque bolts - check end	
		play remove shaft - check	
		seating, repeat similarly	
		for connecting rod and	
		Check seating and refit.	
		(15 Hrs)	
		53. Practice Cleaning and	Description of Cylinder block,
		Checking of cylinder	Cylinder block construction,
		blocks. (10 Hrs)	and Different type of Cylinder
		54. Check cylinder blocks	sleeves (liner). (04 hrs)
		Surface flatness visually.	, , , ,
		(05 Hrs)	
		55. Measure cylinder bore	
		for taper & ovality, clean	
		oil gallery passage and oil	
		pipe line, Bore - descale	
		water passages. (10 Hrs)	
Professional	Trace, Test & Repair	56. Practice on Checking	Need for Cooling systems,
Skill 50 Hrs;	Cooling and	&Top up coolant, (5 Hrs)	Heat transfer method, Boiling
	Lubrication System	57. Drain & refill coolant,	point & pressure, Centrifugal
Professional	of engine. (Mapped	Checking / replacing a	force, Vehicle coolant
Knowledge	NOS: ASC/N1404)	coolant hose, testing	properties and recommended
08 Hrs		cooling system pressure,	change of interval, Different
		Practice on Removing &	type of cooling systems, Basic
		replacing radiator/	cooling system components-
		thermostat. (5 Hrs)	Radiator, Coolant hoses,
		58. Inspect the radiator	Water pump, Cooling system
		pressure cap, testing of	thermostat, Cooling fans,
		thermostat. (5 Hrs)	Temperature indicators,
		59. Perform Cleaning &	Radiator pressure cap,
		reverse flushing. (5 Hrs)	Recovery system, Thermo-
		60. Carryout overhauling	switch.
		water pump and	Need for lubrication system,
		refitting. (10 Hrs)	Functions of oil, Viscosity and

		61. Practice on Checking	its grade as per SAE , Oil
		engine oil,	additives, Synthetic oils, The
		Drainingengine oil,	lubrication system, Splash
		Replacing oil filter,	system, Pressure system,
		Refilling engine oil.	Corrosion/noise reduction in
		(10 Hrs)	the lubrication system.
		62. Carryout Overhauling of	Lubrication system
		oil pump, oil coolers, air	components - Description
		cleaners and air filters	and function of Sump, Oil
		and adjust oil pressure	collection pan, Oil tank,
		relief valves, repairs to	Pickup tube, different type of
		oil flow pipe lines and	Oil pump & Oil filters Oil
		unions if necessary. (10	pressure relief valve, Spurt
		Hrs)	holes & galleries, Oil
			indicators, Oil cooler. (08 hrs)
Professional	Trace & Test Intake	63. Carryout Dismantling &	Intake system components-
Skill 40 Hrs;	and Exhaust system	assembling of	Description and function of
Duefeccional	of engine. (Mapped	turbocharger check for	Air cleaners, Different type
Professional	NOS: ASC/N1405)	axial clearance as per	air cleaner, Description of
Knowledge 08 Hrs		service manual. (10 Hrs)	Intake manifolds and
08 HIS		64. Check Exhaust system for	material,
		rubber mounting for	Exhaust system components-
		damage, deterioration	Description and function of
		and out of position; for	Exhaust manifold, Exhaust
		leakage, loose	pipe, Extractors, Mufflers-
		connection, dent and	Reactive, absorptive,
		damage. (10 Hrs)	Combination., Catalytic
		65. Practice on Exhaust	converters, Flexible
		manifold removal and	connections, Ceramic
		installation. (10 Hrs)	coatings, Back-pressure,
		66. Practice on Catalytic	Electronic mufflers.(08 hrs)
		converter removal and	
		installation. (10 Hrs)	
Professional	Service Fuel System	67. Practice Testing of MPFI	Diesel Fuel Systems-
Skill 50 Hrs;	and check proper	components and	Description and function of
Professional	functionality.	replacement if necessary.	Diesel fuel injection, fuel
Knowledge	(Mapped NOS:	(10 Hrs)	characteristics, concept of
Kilowieuge	ASC/N1405)	68. Check delivery from fuel	Quiet diesel technology &

08 Hrs		Pump. Replacing a fuel	Clean diesel technology.
		filter. (10 Hrs)	Diesel fuel system
		69. Bleed air from the fuel	components – Description
		lines, Servicingprimary&	and function of Diesel tanks &
		secondary filters. (15 Hrs)	lines, Diesel fuel filters, water
		70. Remove a fuel injection	separator, Lift pump, Plunger
		pump from an engine-	pump, Priming pump,
		refit the pump to the	Electronic Diesel control-
		engine re- set timing - fill	Electronic Diesel control
		lubricating-oil start and	systems, Common Rail Diesel
		adjust slow speed of the	Injection (CRDI) system,
		engine. (15 Hrs)	Sensors, actuators and ECU
			(Electronic Control Unit) used
			in Diesel Engines.(08 hrs)
Professional	Test Engine	71. Reassemble all parts of	Engine assembly procedure
Skill 50 Hrs;	Performance and	engine in correct	with aid of special tools and
	set idling speed.	Sequence and torque all	gauges used for engine
Professional	(Mapped NOS:	bolts and nuts as per	assembling.(08 hrs)
Knowledge	ASC/N1405)	workshop manual of the	
08 Hrs		engine. (10 Hrs)	
		72. Perform Engine	
		component assembly	
		procedures- Testing	
		cylinder compression,	
		checking idle speed,	
		Removing & replacing a	
		cam belt, Inspecting &	
		adjusting an engine drive	
		belt, Replacing an engine	
		drive belt. (15 Hrs)	
		73. Practice on Start engine	
		adjust idling speed and	
		damping device in	
		pneumatic governor and	
		venture control unit	
		checking (5 Hrs)	
		74. Test Performance of	
		engine with off load	

		and area of the feature.	
		adjusting timings. (5 Hrs)	
		75. Start engine- adjusting	
		idle speed of the engine	
		fitted with mechanical	
		governor checking- high	
		speed operation of the	
		engine. (5 Hrs)	
		76. Check performance for	
		missing cylinder by	
		isolating defective	
		injectors and test-	
		dismantle and replace	
		defective parts and	
		reassemble and refit	
		back to the engine (10	
		Hrs)

	ENG	INEERING DRAWING: (40 Hrs.)	
Professional	Read and apply	ENGINEERING DRAWING:	
Knowledge	engineering drawing	Introduction to Engineering Dr	awing and Drawing
ED- 40 Hrs.	for different	Instruments –	
	application in the	Conventions	
	field of work.	Sizes and layout of drawing she	eets
	(Mapped NOS:	Title Block, its position and con	tent
	ASC/N9420)	Drawing Instrument	
		Lines- Types and applications i	n drawing
		Free hand drawing of –	

Geometrical figures and blocks with dimension

Transferring measurement from the given object to the free hand sketches.

Free hand drawing of hand tools and measuring tools.

Drawing of Geometrical figures:

 $\label{lem:condition} \textbf{Angle, Triangle, Circle, Rectangle, Square, Parallelogram}.$

Lettering & Numbering – Single Stroke.

Dimensioning

Types of arrowhead

Leader line with text

Position of dimensioning (Unidirectional, Aligned)

Symbolic representation -

Different symbols used in the related trades.

Concept and reading of Drawing in

Concept of axes plane and quadrant

Concept of Orthographic and Isometric projections

Method of first angle and third angle projections (definition and difference)

Reading of Job drawing of related trades

WORKSHOP CALCULATION & SCIENCE: (40 Hrs)

Professional	Demonstrate basic	WORKSHOP CALCULATION & SCIENCE:
Knowledge	mathematical	Unit, Fractions
WCS- 40 Hrs.	concept and principles to perform practical operations. Understand and explain basic science in the field of study. (Mapped NOS: ASC/N9421)	Classification of unit system Fundamental and Derived units F.P.S, C.G.S, M.K.S and SI units Measurement units and conversion Factors, HCF, LCM and problems Fractions - Addition, substraction, multiplication &division Decimal fractions - Addition, subtraction, multiplication& division Solving problems by using calculator (4 hrs) Square root, Ratio and Proportions, Percentage Square and square root Simple problems using calculator Applications of Pythagoras theorem and related problems Ratio and proportion Ratio and proportion - Direct and indirect proportions Percentage Percentage - Changing percentage to decimal and fraction Material Science

Types metals, types of ferrous and non ferrous metals

Physical and mechanical properties of metals Introduction of iron and cast iron

Difference between iron & steel, alloy steel and carbon steel Properties and uses of rubber, timber and insulating materials

Mass, Weight, Volume and Density

Mass, volume, density, weight and specific gravity Related problems for mass, volume, density, weight and specific gravity

Speed and Velocity, Work, Power and Energy

Speed and velocity - Rest, motion, speed, velocity, difference between speed and velocity, acceleration and retardation Speed and velocity - Related problems on speed & velocity Work, power, energy, HP, IHP, BHP and efficiency Potential energy, kinetic energy and related problems with assignment

Heat & Temperature and Pressure

Concept of heat and temperature, effects of heat, difference between heat and temperature, boiling point & melting point of different metals and non-metals

Thermal conductivity and insulators

Concept of pressure - Units of pressure, atmospheric pressure, absolute pressure, gauge pressure and gauges used for measuring pressure

Basic Electricity

Introduction and uses of electricity, electric current AC,DC their comparison, voltage, resistance and their units Conductor, insulator, types of connections - series and parallel Ohm's law, relation between V.I.R & related problems Magnetic induction, self and mutual inductance and EMF generation

Mensuration

Surface area and volume of solids - cube, cuboid, cylinder, sphere and hollow cylinder

Levers and Simple machines

Lever & Simple machines - Lever and its types

Project Work/ Industrial Visit: -

Broad Area:

- a) Testing of engine after assembling.
- b) Intake and Exhaust System.
- c) Emission control
- d) Charging system
- e) Vehicle Troubleshooting

Following practical to be Suspension Systems:-	` '	Suspension Systems:-
Practiced On Light & Heavy Principles of suspension,	• .	
Vehicle : Suspension force, Unsprung	= '	·

- 108. Practice on visual
 Inspection of chassis
 frame for crack, bent and
 twists. (10 Hrs)
- 109. Carryout Overhauling and Inspection of shackle, leaf spring, front & rear suspension. (09 Hrs)
- 110. Practice on removing, inspection and assembling of shock absorber (09 Hrs)
- 111. Practice Lubricating a suspension system. (08 Hrs)
- shooting for Suspension system defects: Wheel hop, ride height (unequal and low), noises under operation, fluid leakage, excessive travel, bounce, worn dampers, worn joints/damaged linkages, vehicle "crabbing". (09 Hrs)

weight, Wheel unit location, Dampening. Types of suspension-Suspension systems, Solid axle, Dead axle, Description, function and advantages of non independent suspension Independent suspension, Rear independent suspension, Rear-wheel drive independent suspension, electronically controlled air suspension (ECAS), Adaptive air suspension operation. Types of springs - Description and function of Coil springs, Leaf springs, Torsion bars, Rubber springs. Shock absorber types- Description and function of Hydraulic shock absorbers, Gas-pressurized shock absorbers, Loadadjustable shock absorbers, Manual adjustable-rate shock absorbers, Electronic adjustable-rate shock absorbers, Automatic loadadjustable shock absorbers Front suspension types & components- Mc person Strut suspension, Short/long arm suspension, Torsion bar suspension Rear suspension types & components-Rigid axle leaf spring suspension, Rigid axle coilspring suspension,

	Independent type
	suspension, Rigid non-drive
	suspension.(15 hrs)
113. Practice on removing	Wheels & Tyres-Wheel types
wheels from light &	& sizes Wheels, Rim sizes &
Heavy vehicle,	designations, Types of
dismantling tyres and	wheels
tubes checking puncture.	Tyre types & characteristics-
(10 Hrs)	Tyres, Radial ply tyres, Radial
114. Practice Assembling&	ply tyre sidewalls, Tyre
inflating tyres to correct	pressure monitoring
pressure. (10 Hrs)	systems, Run flat tyres,
115. Check & adjust tire	Space-saver tyres, Tyre
pressure by use of air or	distortion, Center of gravity.
by Nitrogen(10 Hrs)	Tyre construction-Tyre
116. Rotate the wheels in	construction, Types of tyre
vehicle minor repairs to	construction, Tyre materials,
wheels and tyres, wheel	Hysteresis, Tyre sizes &
balancing & alignment.	designations, Tyre
(10 Hrs)	information, Tyre tread
117. Check for tyre wear	designs, Tyre ratings for
patterns. (10 Hrs)	temperature & traction.
,	Descriptions Tirewear
	Patterns and causes
	Nitrogen v/s atmospheric air
	in tyres (12 hrs)
118. Practice on Adjusting	Braking Systems :- Principles
brake pedal play,	of braking, Drum & disc
Overhauling and	brakes, Lever/mechanical
inspection of tandem	advantage, Hydraulic
master cylinder	pressure & force, Brake pad,
assembly. (5 Hrs)	Regenerative braking.
119. Perform Overhauling and	Braking systems - Brake type
inspection of front and	- principles, Air brakes,
rear brake assembly,	Exhaust brakes, Electric
overhauling and	brakes, Parking brakes,
inspection of wheel	_
•	Engine brakes, Regenerative
cylinder assembly. (5 Hrs)	braking

- 120. Bleed hydraulic brakes &Disk brakes. (10Hrs)
- 121. Carryout Overhauling and inspection of vacuum assisted brake assembly. (10 Hrs)
- 122. Perform Overhauling and inspection of disc brake.(10 Hrs)
- 123. Practice Adjusting Air brakes- repair to tank unit, air compressor, wheel brake adjuster-locating air leaks in the brake lines and rectifying general maintenance and care. (10 Hrs)
- 124. Perform Brakes service procedures-Checking & adjusting brake fluid, Replacing brake fluid, Checking brake pads, Replacing brake pads, Removing & replacing a rotor, Replacing brake linings, Adjusting a parking brake cable. (15 Hrs)
- in braking system of a heavy vehicle adjusting all four wheel brakes, precautions to be observed while testing brakes points to be remember while preparing the vehicle for brake certificate. (15 Hrs)

Braking system components-Park brake system, Brake pedal, Brake lines, Brake fluid, Bleeding, Master cylinder, Divided systems, Tandem master cylinder, Power booster or brake unit, Hydraulic brake booster, Electro hydraulic braking (EHB), Applying brakes, Brake force, Brake light switch Drum brakes & components -Drum brake system, Drum brake operation, Brake linings & shoes, Back plate, Wheel cylinders Disc brakes & components -Disc brake system, Disc brake operation, Disc brake rotors, Disc brake pads, Disc brake callipers, Proportioning valves, Proportioning valve operation, Brake friction materials Antilock braking system & components-ABS brake system, Antilock braking system operation, Principles of ABS braking, ABS master cylinder, Hydraulic control unit, Wheel speed sensors, ABS with EBD electronic control unit. The construction and operation of heavy vehicle

Anti-Slip Regulation /

		126.	Practice of maintaining of	Traction Control (ASR)
			ABS system. (05 Hrs)	system.
				Introduction to
				Electromagnetic retarder
				brake (EMR) and Engine
				exhaust brake.(20 hrs)

SYLLABUS FOR CORE SKILLS

1. Employability Skills (Common for all CTS trades) (120 Hrs. + 60 Hrs.)

Learning outcomes, assessment criteria, syllabus and Tool List of Core Skills subjects which is common for a group of trades, provided separately in <a href="www.bharatskills.gov.in/dgt.g

	LIST OF TOOLS AND EQUIPMENT					
	MECHANIC MOTOR VEHICLE (for Batch of 24 Candidates)					
S No.	Name of the Tools & Equipment	Specification	Quantity			
A. TRA	AINEES TOOL KIT					
1.	Allen Key set of 12 pieces	2mm to 14mm	6+1 nos.			
2.	Calliper inside with spring	15 cm	6+1 nos.			
3.	Callipers outside with spring	15 cm	6+1 nos.			
4.	Center Punch.	10 mm. Dia. x 100 mm	6+1 nos.			
5.	Dividers with spring	15 cm	6+1 nos.			
6.	Electrician Screw Driver	250mm	6+1 nos.			
7.	Hammer ball peen with handle	0.5 kg	6+1 nos.			
8.	Hands file for Second cut flat	20 cm.	6+1 nos.			
9.	Philips Screw Driver set of 5 pieces	100 mm to 300 mm	6+1 nos.			
10.	Pliers combination	20 cm.	6+1 nos.			
11.	Screw driver Blade	20cm.X 9mm.	6+1 nos.			
12.	Screw driver Blade	30 cm. X 9 mm.	6+1 nos.			
13.	Scriber	15 cm	6+1 nos.			
14.	Spanner D.E. set of 12 pieces	6mm to 32mm	6+1 nos.			
15.	Spanner, ring set of 12	6 to 32 mm. (metric)	6+1 nos.			
16.	Spanners socket with speed handle, T-bar, ratchet and universal set of 28 pieces with box	up to 32 mm	6+1 nos.			
17.	Steel rule	30 cm inch and metric	6+1 nos.			
18.	Steel tool box with lock and key (folding type)	400x200x150 mm	6+1 nos.			
19.	Wire cutter and stripper		6+1 nos.			
B. INSTRUMENTS AND GENERAL SHOP OUTFIT - For 2 (1+1) units no additional items are required						
TOOLS	S & EQUIPMENT					
20.	Adjustable spanner (pipe wrench)	350 mm	2 nos.			
21.	AC alternator slip ring puller	Variable	1 no.			

			<u>.</u>
22.	Air blow gun with standard	Trigger operated with	1 no.
	accessories	interchangeable nozzles	
23.	Ammeter DC with external shunt	300A/ 60A	4 nos.
24.	Air ratchet	with standard accessories	2 nos.
25.	Air impact wrench	with standard accessories.	2 nos.
26.	Anvil with Stand	50 Kgs	1 no.
		For checking Dynamo, Alternator &	1 no.
27.	Auto Electrical test bench	Starter. With minimum2HP AC Motor,	
		Digital Voltmeter & ammeter.	
28.	Pattory chargor	Capable to charge batteries from 5AH	2 nos.
20.	Battery –charger	– 150AH.	
29.	Blow Lamp	1 litre	2 nos.
30.	Belt Tensioner gauge		1 no.
		Minimum3 Phase 1HP 1400RPM	1 no.
	Car let washer with standard	Motor, 3 Reciprocating Plungers with	
31.	Car Jet washer with standard accessories	pressure regulator & gauge. 8m	
		Water hose with pressure adjustable	
		brass nozzle.	
32.	Chain Pulley Block capacity with	3 ton	1 no.
32.	tripod stand		
33.	Chisel flat	10 cm	4 nos.
34.	Circlip pliers Expanding and	15cm and 20cm	4 oach
54.	contracting	15cm and 20cm	4 each
35.	Cleaning tray	45x30 cm.	4 nos.
36.	6	suitable for diesel Engine with	2 nos.
30.	Compression testing gauge	standard accessories	2 1103.
37.	Copper bit soldering iron	0.25 Kg	2 nos.
38.	Cylinder bore gauge capacity	20 to 160 mm	1 no.
39.	Cylinder liner- Dry & wet liner,		1 each
39.	press fit & slide fit liner		(consumable)
40.	Depth micrometer	0-25mm	1 no.
	Dial gauge type 1 Gr. A (complete		
41.	with clamping devices and with		1 no.
	magnetic stand)		
42	Different type of Engine Bearing	10 Different types on beaut	1.554
42.	model	10 Different types on board	1 set
43.	Different type of piston model	5 Different Typeson board	1 set

44.	Drift Punch Copper	15 Cm	2 nos.	
45.	Drill twist (various sizes) 1.5 mm to 8 mm by 0.5mm 4		4 nos.	
46.	Electric Soldering Iron	230 V 60 watts 230 V 25 watts	2 each	
47.	Electric testing screw driver		4 nos.	
48.	Engineer's square	Blade size 15 cm	4 nos.	
49.	Engineers stethoscope		1 no.	
50.	Feeler gauge 20 blades (metric)		4 nos.	
51.	File flat , bastard	20 cm	4 nos.	
52.	File, half round ,second cut	20 cm	4 nos.	
53.	File, Square second cut	20 cm	4 nos.	
54.	File, Square round	30 cm	4 nos.	
55.	File, triangular , second cut	15 cm	4 nos.	
56.	Files assorted sizes and types		2each	
50.	including safe edge file (20 No's)		Zeacii	
57.	Flat File , second cut	25 cm	4 nos.	
58.	Flat File , bastard	35 cm	4 nos.	
59.	Fuel feed pump for Diesel Hand operated Plunger Type		1 no.	
60.	Fuel injection pump (Diesel)	4/6 cylinders RSV Mechanical	1 no.	
00.	inline	Pneumatic Governor Type.	1110.	
	Fuel injection pump VE pump /			
61.	Distributor fuel rotary pump		1 each	
01.	(DPC) pumps / along with special		I Cucii	
	tools and accessories			
62.	Grease Gun		2 nos.	
63.	Grease Gun heavy duty trolley	10 kg capacity	1 no.	
	type	To Mg capacity	2	
64.	Growler		2 nos.	
65.	Hacksaw frame	adjustable 20-30 cm	12 nos.	
66.	Hammer Ball Peen	0.75 Kg	4 nos.	
67.	Hammer Chipping	0.25 Kg	5 nos.	
68.	Hammer copper with handle	1 Kg	4 nos.	
69.	Hammer Mallet		4 nos.	
70.	Hammer Plastic		4 nos.	
71.	Hand operated crimping	(i) up to 4mm	2 each	
,	tool/wire	(ii) up to 10mm	2 60011	
72.	Hand vice Up to 37 mm 2 nd		2 nos.	
73.	Hollow Punch set of seven pieces	6mm to 15mm	2sets	

74.	Injector – Multi hole type, Pintle type		4 each
75.	Injector testing set	(Hand tester)	1 no.
76.	Insulated Screw driver	20 cm x 9mm blade	4 nos.
77.	Insulated Screw driver	30 cm x 9mm blade	4 nos.
78.	Lifting jack screw	3 ton, 5ton & 20 Ton	1 each
79.	Magneto spanner set with 8 spanners		1set
80.	Magnifying glass	75mm	2 nos.
81.	Multimeter digital	LCD Display	5 nos.
82.	Oil can	0.5/0.25 liter capacity	4 nos.
83.	Automotive oil pump for dismantling and assembling.		2 nos.
84.	Outside micrometer	0 to 25 mm	2 nos.
85.	Outside micrometer	25 to 50 mm	2 nos.
86.	Outside micrometer	50 to 75 mm	1 no.
87.	Outside micrometer 75 to 100 mm		1 no.
88.	Philips Screw Driver set of 5 pieces (pozidrivandtorx drive)	100 mm to 300 mm	2 nos.
89.	Piston ring compressor		2 nos.
90.	Piston Ring expander and remover.		2 nos.
91.	Piston Ring groove cleaner.		1 no.
92.	Pliers flat nose	15 cm	2 nos.
93.	Pliers round nose	15 cm	2 nos.
94.	Pliers side cutting	15 cm	2 nos.
95.	Portable electric drill Machine	Upto 10mm (heavy duty)	1 no.
96.	Prick Punch	15 cm	4 nos.
97.	Punch Letter 4mm (Number)		2 sets
98.	Radiator cut section-cross flow	Radiator with sectioned side tanks, radiator core.	1 no.
99.	Radiator with sectioned upper &		1 no.
100.	Radiator pressure cap	LMV	2 nos.
101.	Scraper Triangular	25 cm	2 nos.
102.	Scriber	15 cm	2 nos.
103.	Scriber with scribing black		2 nos.

	universal		
104.	Set of stock and dies -Metric		2sets
105.	Sheet Metal Gauge		2 nos.
106.	Spanner T. flocks for screwing up and up-screwing inaccessible		2 nos.
107.	Spanner, adjustable	15cm	2 nos.
108.	Spark plug spanner 14mm x 18mm x Size	Long bit for Alto/800	2 nos.
109.	Starter motor axial type, pre- engagement type & Co-axial type		1each
110.	Steel measuring tape in a case	10 meter	2 nos.
111.	Steel rule 15 cm inch and metric		4 nos.
112.	Straight edge gauge 2 ft.		2 nos.
113.	Stud extractor set of 3		2sets
114.	Stud remover with socket handle		1 no.
115.	Surface gauge with dial test indicator plunger type	0.01 mm	4 nos.
116.	Tachometer (Counting type)		1 no.
117.	Tandem master cylinder with booster		4 nos.
118.	Thermostat		2 nos.
119.	Thread pitch gauge Metric		2 nos.
120.	Timing lighter		2 nos.
121.	Torque wrenches	5-35 Nm, 12-68 Nm & 50-225 Nm	1each
122.	Turbocharger cut sectional view	Latest WGT type to show turbine, impeller and compressor wheels.	1 no.
123.	Tyre pressure gauge with holding nipple		2 nos.
124.	Universal puller for removing pulleys, bearings		1 no.
125.	V' Block 75 x 38 mm pair with Clamps		2 nos.
126.	Vacuum gauge 0 to 760 mm of Hg.		2 nos.
127.	Valve Lifter		1 no.
128.	Valve spring compressor universal		1 no.
129.	Vernier calliper	0-300 mm with least count 0.02mm	4 nos.
	•		

130.	Vice grip pliers		2 nos.
131.	Automotive Water pump for dismantling and assembling		4 nos.
132.	Wire Gauge (metric)		2 nos.
133.	Work bench	250 x 120 x 60 cm with 4 vices 12cm Jaw	4 nos.
134.	Working model of Air Brake Assembly	Two brake drums, vehicular air compressor driven by suitable Electric Motor, air dryer, brake chamber . stop light, different valves, air pressure gauges. With all accessories.	1 no.
135.	Alternator assembly used for LMV	Alternator (>50 Amp)	1 no.
136.	Carburetor – Solex, Mikuny for dismantling and assembling	Solex, Mikuny for dismantling and assembling	1 Each
137.	Chain Pulley Block-3 ton capacity 3 ton capacity with tripod Stand with tripod stand		1 no.
138.	Cut section Model of Mock layout of a motor car –electrical system working model	Wiring with parts and accessories of a car to be arranged according to the electrical circuit of a car. Working of Self-starter, Alternator, Wiper Motor, Horn, lighting system, sparks from plug to be shown with Distributor & battery. Should be mounted on suitable table	1 no.
139.	Cut section models of shock absorbers		1 no.
140.	Cut section of cross ply and radial tyres		1 no.
141.	Cut section working model of automatic transmission Gear box	Sectioned to show the internal mechanism of forward and reverse speeds.	1 no.
142.	Cut section working model of centrifugal clutch assembly.	Centrifugal Clutch sectioned to show the internal details	1 no.
143.	Cut section working model of Diaphragm clutch assembly.	Diaphragm Clutch sectioned to show the internal details	1 no.
144.	Cut section working model of	Single plate Clutch sectioned to show	1 no.

	Single plate clutch assembly	the internal details	
145.	Demonstration board of	With HT coil, HT wires, Spark Plugs,	1 no.
	electronic Ignition system,	ignition switch, coil, distributor,	
	ignition coil	battery, and wiring.	
		With injectors, rail, inlet manifold,	1 no.
1.46	Demonstration board of MPFI	throttle body, distributor, ECU, purge	
146.	system	valve, sensor, crank pulley, fuel tank	
		module.	
	Disk brake in working condition	Exhibiting Brake disc, Caliper	1 no.
147.	with caliper assembly with all	assembly, tandem master cylinder,	
	parts	brake hoses, oil bottle, pedal, etc.	
148.	Drum brake assembly in Working	Brake drum, tandem master cylinder,	1 no.
140.	Condition	oil container, brake hose, brake pedal.	
	Front axle (Rzeeppa Joint) with		1 no.
149.	stand for Dismantling and	Rzeppa joint of LMV.	
	assembly		
150.	Full floating axle and semi-	Drum & axle casing should be with all	1 no.
150.	floating axle assembly	components in working condition.	
		With Different type of sensors like	1 no.
		Throttle Position Sensor, Manifold	
		Absolute Pressure Sensor, Engine	
	Functional/experiment model of	Coolant Temperature Sensor, Vehicle	
151.	different type of sensors.	Speed Sensor, Oxygen Sensor,	
	different type of sensors.	Crankshaft Position Sensor, Camshaft	
		Position Sensor, Intake Air	
		Temperature Sensor, Mass Air Flow	
		Sensor, Knock Sensor with ECU.	
	Steering assembly –	1. Rack & Pinion with steering wheel,	1 each
		column, tie rod end.	
	1.Rack & pinion	2. Worm & Roller steering assembly	
	2.Worm & roller	with drop arm.	
	3. Recirculating ball	3. Recirculating Ballsteering with	
152.	4.Power steering	pitman shaft and drop Arm.	
	5. Electric Assisted Power	4. Hydraulic working power steering	
	Steering	with steering wheel, column, flow	
		pipe, hydraulic pump, oil reservoir.	
		5. Electric Assisted Power Steering	
		with Rack and pinion, Electric Motor	

		and Motor Control Module	
153.	Synchronous Gear box with stand	Gearbox with 5 Forward & 1 Reverse	1 no.
155.	for Dismantling and assembly	Gear	
154.	Tandem master cylinder with booster	Working model	1 no.
155.	Tubed tyre of car, trucks & motorcycle		1 each
156.	Tubeless tyre of cars & trucks		1 each
157.	Tyre& split rim wheel assembly		1 no.
158.	Working Model of power windows	Showing parts like door, glass with motor and its gear arrangement and operating switch.	1 no.
159.	Working model of torque converter	Model of LMV	1 no.
GENER	RAL SHOP OUTFIT		
160.	Air conditioned CRDI Vehicle in running condition -LMV	New vehicle with CRDI engine, 04 strokes, 04 cylinders, BS-VI, fitted with air condition.	1 no.
161.	Arbor press hand operated	2 ton capacity	1 no.
162.	Automotive exhaust 5 gas analyser and Diesel Smokemeter (for petrol & Diesel)	Exhaust 5 Gas Analyzer Petrol ARAI approved to check CO, CO ₂ , O ₂ , and HC& NO. Diesel Smoke Meter ARAI approved.	1 no.
163.	Diesel Engine – CRDI - 4 strokefor Dismantling and Assembling with Swiveling Stand.	Latest 4 Stroke 4 cylinder turbo charged CRDI Engine, 800-1600cc, in running condition, with ECM, BCM (optional), and all sensors, wiring, fuel feed & cooling system & instrument cluster.	1 no.
164.	Diesel engine (Running condition) Stationary type single cylinder	Single Cylinder, OH valves, fuel tank with handle, fuel feed, water cooling, oil pump.	1 no.
165.	Hydraulic jack HI-LIFT type	3 ton capacity, and 5 Ton capacity	1each
166.	Multi Scan Tool To scan Engine, ABS & EBD, AT, SRS, Body Control and immobilizer	Should perform automotive sensor simulation test specially designed to diagnose and simulate vehicle sensor	1 no.

		faults for sensors like MAP sensor, Intake air temperature sensor, TP	
		sensor etc.	
167.	Chring tonsion tostor	Manually operated with analogue	1 no.
107.	Spring tension tester	display.	
168.	Trolley type portable air	Belt driven compressor along with	1 no.
100.	compressor	accessories	
	Working Condition of Diesel	Latest 4 Stroke 4 cylinder turbo	1 no.
	Engine – CRDI - 4 stroke Engine,	charged CRDI Engine, with ECM, BCM	
	Assembly with fault simulation	and sensors, wiring, fuel feed, cooling	
	board	system& instrument cluster. Fault	
169.		setting bank for minimum 8 sensors	
		and with diagnostic socket&Scanner	
		to read the faults. Engine	
		management circuit diagram to be	
		printed on the panel board.	
	Cut section of 4/6 cylinder diesel	6 cylinder diesel engine in working	1 no.
170.	engine in moving condition to	condition to show movement of	
	show movement of internal parts	internal parts	
	Diesel Engine six Cylinder in	Latest Diesel Engine CRDI 4 Stroke 6	1 no.
	running condition	Cylinders, Turbocharged Engine in	
171.		running condition. All sensors, wiring,	
		fuel feed, cooling system &	
		instrument cluster	
	Air bag simulator	Driver & Co Driver Air Bags, Seat belts	1 no.
172.		with front seats, crash sensors, air bag	
		ECU, Wiring Harness	
	Air conditioning service Unit (Car)	Suitable for R134A. Recovery with	1 no.
173.		vacuum pump, automatic drain &	
		stop after recovery.	
	Four stroke petrol engine with	Latest 4 Stroke 3/4 cylinder MPFI	1 no.
	CNG setup-working condition	Engine in running condition 800-	
		1600cc with ECM, BCM (optional) and	
174.		all sensors, wiring, fuel feed system,	
1/4.		cooling system& instrument cluster	
		with CNG/ Petrol selection switch on	
		Panel.	
		N.B.: If ECM and BCM are available as	

		one control unit can be purchased	
		instead ECM, BCM as separated.	
175.	Heavy Commercial vehicle	Fitted with Latest 06 cylinder CRDI	1 no.
		diesel engine with all parts and	
		accessories. (without body on frame)	
	MPFI petrol engine with	Latest 4 Stroke 3/4 cylinder MPFI	1 no.
	swiveling stand along with special	Engine in running condition 800-	
	tools for dismantling and	1600cc with ECM, BCM (optional) and	
176.	assembling	all sensors, wiring, fuel feed system,	
170.		cooling system & instrument cluster.	
		N.B.: If ECM and BCM are available as	
		one control unit can be purchased	
		instead ECM, BCM as separated.	
	Petrol Engine(2-stroke) Motor	Cut Section of 2 Stroke 2 W Engine	1 no.
	Cycle/Scooter along with special	Single Cylinder	
177.	tools and accessories (Optional)		
1//.	* If not available in market video		
	demonstration may be used to		
	explain working.		
178.	Transfer case with stand for	To show the gear mechanism of	1 no.
170.	Dismantling and assembly.	forward and reverse speeds.	
179.	Tube/ tyre vulcanizing machine	220 V , Heater Capacity 400W x 2	1 no.
175.	rube, tyre valeariizing macrime	With different types of Die &Mould	
180.	Two post car lift – capacity 4000	Hydraulic Type with Mechanical Arms	1 no.
100.	kg	Locking.	
		Motorized Pneumatic Type, Rim	1 no.
181.	Tyre Changer Machine	clamping facility, and bead breaking	
		facility with air inflating device.	
		Flow analysis & spray pattern test,	1 no.
182.	Ultrasonic Injection cleaning	leak test, auto programming mode,	
102.	equipment	ultrasonic test with timer, Min 500 ML	
		Lit SS Tank with Lid, SS Stand.	
		Latest machine for four wheel	1 no.
	Wheel alignment Machine –	alignment. With connected camera ,	
183.	computerized 3D (Optional)	IR Lighting Source min. 8mm,	
	Computerized 3D (Optional)	Reflector metal based, should work in	
		sunlight	
184.	Wheel balancing machine	For wheel balancing of LMV. Motor	1 no.

		O. F. LID Chaft Diamenton with 20mm	
		0.5 HP Shaft Diameter min 38mm.	
		Hardened flange assy. Balancing catch	
	Working Condition of Detail MCDI	nut of metal.	1
	Working Condition of Petrol MPFI	Latest 4 Stroke 3/4 cylinder MPFI in	1 no.
	Engine Assembly with fault	running condition,800-1600cc with	
	simulation board	ECM, BCM and all sensors, wiring, fuel	
		feed system, cooling system &	
185.		instrument cluster with Fault setting	
		bank for minimum 6 sensors with	
		diagnostic socket & Scanner to read	
		the faults. Engine management circuit	
		diagram to be printed on the panel	
	W 1: 0 III: 15 V	board.	4.81
186.	Working Condition of E.V	Electric car with all required	1 No
	(Electric Vehicle) Car	accessories including battery charger	
	UMABLE	T	
187.	Battery		As required
188.	Brake fluids		As required
189.	Chalk, Prussian blue		As required
190.	Chemical compound for fasteners		As required
191.	Diesel		As required
192.	Different type gasket material		As required
193.	Different type of oil seal		As required
194.	Drill Twist (assorted)		As required
195.	Emery paper	36–60 grit , 80–120	As required
196.	Engine oil & Engine coolant		As required
197.	Gear oils		As required
198.	Hacksaw blade (consumable)		As required
199.	Holders, lamp teakwood boards,		As required
199.	plug sockets,		
200.	Hydrometer		5 nos.
201.	Lapping abrasives		As required
202.	Petrol		As required
203.	Power steering oil		As required
204.	Radiator Coolants		As required
205.	Safety glasses		As required
206.	Steel wire Brush	50mmx150mm	5 nos.

207.	Battery for E.V Car		As required
208.	Diodes and transistors As require		As required
CLASS	ROOM FURNITURE FOR TRADE THE	EORY	
209.	Instructor's table and Chair	Steel	1 set
210.	Students chairs with writing pads		24 nos.
211.	White board size	1200mm X 900 mm	1 no.
212.	Instructors lap top with latest configuration pre-loaded with operating system and MS Office package.		1 no.
213.	LCD projector/interactive smart board.		1 no.
214.	Trainees locker	6½ ' x 3' x 1½'	1 set each (optional)
TOOL	TOOLS & EQUIPMENTS FOR ENGINEERING DRAWING HALL		
215.	Drawing board	(700mm x500 mm) IS: 1444	24 +1 nos.
216.	Mini drafter		24 +1 nos.
217.	Set square	celluloid 45° (250 X 1.5 mm)	24 +1 nos.
218.	Stool for trainees		24 +1 nos.
219.	Cupboard (big)		1 no.
220.	White Board	8ft. x 4ft.	1 no.
221.	Trainer's Table		1 no.
222.	Trainer's Chair		1 no.
223.	Draughtsman drawing instrument box		24 +1 nos.
224.	Draughtsman table		24 +1 nos.
